## **The Government Respecting an Establishment of Philosophy (infidel philosophy) and Psychology.**

Our founding fathers when written the constitution in 1787, had little clue, government will someday be a respecter of philosophy (infidel philosophy) and psychology in the vast government university and education system. Being the first government university institution wasn't established until 1801. All universities up until 1801 were of private citizenry. Yale, Princeton, many of religious grass roots. Wasn't until around 1879, Psychology began in German universities, acclaimed by the so called intelligentsia as a so called science.

**Timothy Dwight** [http://en.wikipedia.org/wiki/Timothy\\_Dwight\\_IV](http://en.wikipedia.org/wiki/Timothy_Dwight_IV) president of Yale college (1795–1817). (Wikipedia) Dwight frequently warned audiences against the threats of this "infidel philosophy" in America. An address to the candidates for the baccalaureate in Yale College called "**The Nature and Danger of Infidel Philosophy** <http://www.classicapologetics.com/d/dwightphil.pdf> , Exhibited in Two Discourses, Addressed to the Candidates for the Baccalaureate, In Yale College" was delivered on September 9, 1797. It was published by George Bunce in 1798. This book is credited as one of the embers of the Second Great Awakening. ,

In around 1990, I decided to go up to the nearby buffalo university, to see if there may be any evidence to support my hunches from observing human behavior and reading the bible. I believed I found a smoking gun to declaim psychology 's scientific creditability, once and for all.

I wrote in 1995, the rudiments of the world, psychology, is base on a lesser time span and a narrow rudimentary observation of the culture, a foundation of sifting sand, resulting in faddish and bias conclusion against religion and people of its morality.

Seymour Epstein, University of Massachusetts- Amherst

“Psychology claims to be scientific having a high degree of control and objectivity. However, there is no more fundamental requirement in science then that the replicability of findings be established. Since experiments in the physical sciences produce results that are replicable and generalizable, it seemed reasonable to them, the same was true for psychology. Laboratory experiments actually are ineffective because much human behavior is so sensitive to incidental sources of stimulation, that adequate control wouldn't be achieved, even at attempts of exact replication. As for objectivity and full disclosure in psychology, few replication studies are attempted. Replication studies are particularly apt to be rejected for publishing, when they cast doubt on psychologies accepted conclusions. Some journals state that they do not accept replication studies; others implicitly follow a similar policy.”

As was once for hundreds of years the state had respected an establishment of religion. Empowered the Catholic establishment, with the title the one and only true Christianity, over all others claiming Christianity in Europe. In the 20<sup>th</sup> century the government institutions, has respected an establishment of philosophy (infidel philosophy) and psychology. Gave psychology an equivalent title the one and only true “EXPERT in human behavior”, over all other human behavior groups. Today, government universities are in every state in the U.S., some having several.

“California has approximately 36 state universities, 110 community colleges. Government universities are as large cities of architectural grand design, as the temples of ancient Egypt, as multiple colossal mega churches on one campus, as multiple Vaticans across the nation, containing so called experts, as if priest in psychology and philosophy (infidel philosophy), costing trillions of tax dollars, to memorize, redirect and hold fast millions of particular young citizens mindsets, towards the dogmas and goals in philosophy (infidel philosophy) and psychology. Government unconstitutionally promulgating an electorate to vote for its dogmas into government policy”

The title of expert in human behavior, in government institutions, has voided, canceled out the constitution's most acclaimed, primary proclamation. Particularly the spirit (mental disposition), principle behind the constitution's proclamation forbid government to respect an establishment. Be it religion or other form of human behavior group that takes the place of religion. The supreme court had stated:

“among religions in this country which do not teach.... A belief in the existence of God...[are] Buddhism, Ethical Culture, secular Humanism, and others.” See *Torcaso v. Watkins*, 397 U.S. 488, 495, n.11 (1961)

Our nation's founding heritage, first elected leaders, gave public respect of their choosing towards religion, particularly Christianity, and Judaism. On the other hand in the constitution, without respect of an establishment “a particular sect” within, among the many separate groups in Christianity or Judaism, was the line in the sand. They allowed the national institutional buildings, equally, freely open to the different sects, to use as Halls, facilities for services, preaching. Due to limited availability of large private halls in Washington and easy secured access for senators and their families to hear preachers of the day. The non establishment religious cause in the constitution, in spirit (mental disposition, intent) displayed in our founding fathers actions, words, purpose was so no particular sect within Christianity would be given an advantage by government over other sects in Christianity. No particular supernatural creed, practice, teaching would be made into law. With allowance for secular principles, applicable, brought peace, tranquility in the society, and public display by elected representative, a public acknowledgment in writing or verbal of a Creator, God, in words or a prayer.

The declaration of independence, had signified four times God

“nature's God”

“creator”

“supreme judge of the world”

“with a firm reliance on the protection of Divine Providence”

Ben Franklin, at age 81, stood up during the framing of our constitution and said,

“In the beginning of the contest with Britain, when we were sensible of danger, we had daily prayers in this room for Divine protection. Our prayers, Sir, were heard and they were graciously answered. All of us who were engaged in the struggle must have observed frequent instances of a superintending Providence in our favor.... And have we now forgotten this powerful Friend? Or do we imagine we no longer need His assistance?”

“I have lived, Sir, a long time, and the longer I live, the more convincing proofs I see of this truth: ‘that God governs in the affairs of man.’ And if a sparrow cannot fall to the ground without His notice, is it

probable that an empire can rise without His aid? We have been assured, Sir, in the Sacred Writings that except the Lord build the house, they labor in vain that build it. I firmly believe this. I also believe that, without His concurring aid, we shall succeed in this political building no better than the builders of Babel; we shall be divided by our little partial local interest; our projects will be confounded, and we ourselves shall become a reproach and a byword down to future ages. And what is worse, mankind may hereafter, from this unfortunate instance, despair of establishing government by human wisdom and leave it to chance, war, or conquest.

"I therefore beg leave to move that, henceforth, prayers imploring the assistance of Heaven and its blessing on our deliberation be held in this assembly every morning before we proceed to business."

George Washington 1796, in his farewell address spoke these words

"Of the dispositions and habits which lead to political prosperity, religion and morality are indispensable supports. In vain would that man claim the tribute of patriotism who would labor to subvert these great pillars of the duties of men and of citizens."

Thomas Jefferson wrote a book removing all the supernatural parts of the new testament and left only the secular parts, principles. It's called the Jefferson's bible. Jefferson gave credit to Jesus words as the greatest morality for mankind.

The nations biblical heritage, particularly the secular parts, principles in the bible, been used by our founding fathers to guide in declaring and securing it's freedom and constituting our nation. Shown in the founding founders, elected leaders, and citizens a self evident public respect, acknowledgment of a creator, God, in words or prayer. Particularly by elected representatives (senators, congress men, governors, (both elected judges), mayors, which should be granted to elected\* school boards. This must never be granted to unelected bureaucrats, unelected members of government, any staff of any elected representative, **especially and foremost teachers, and while on duty at a school function, being they are not elected**. School teachers must be only allowed to initiate a moment, period of time, for silence, to offer only a private citizen, any student, or perhaps in attendance any elected representative of government, an elected school board member, could lead, speak, an acknowledgment of a creator, God, in words or a prayer.

To our great lost, the last century, 100 years of trillions of tax dollars went towards government respect of the establishment of philosophy (infidel philosophy) and psychology in government institutions. The people's true voice, vote, through the decades was slowly rendered diluted, altered, elections giving off faulty readings across the nation for decades. Slowly took away the full measure of our founding fathers constitutional empowerment in the people, of the people, for the people. When the founding father wrote of the people, by the people, they were seeing private individualists, as the power broker in government, not a vast government left wing bureaucratic human behavior group, in philosophy (infidel philosophy), psychologist given the title expert in human behavior. Swaying the the vast government so called educational system made up of hundreds of thousands of unelected teachers to teach psychology's and philosophies dogmas and goals.

Through the decades the vast government educational system in psychology with it's roots in philosophy (infidel philosophy), was more influential particularly in man's created environments, such as urban areas as in the the north east. Combined especially in the north east, the existence of numerous Catholics, were in the past forbid reading the bible by many various ways, even to the point of murder, terror by the catholic hierarchy. Being taught not the meaning of the word spirit, as meaning mental disposition, particular thinking, thought by thought, ones logic, logic of man or God. A stumbling block in front of many Catholics, and to an extent non catholics to read the bible themselves, searching for the spirit (mental disposition, particular thinking) behind the words. Many Catholics finding the Catholic's version of Christianity with many holes in it's logic, many put off many catholic doctrines. Instead of then turning toward reading the bible for mental dispositions, logic, thought by

thought, offered in the word spirit, to shed light of mankind's behavior tendencies, in human behavior principles, they were memorized by government promoted psychology in the government institutions as an alternative to reading the bible for their thinking. Even many bible readers in other areas of the country, not carefully studying the bible, in seeking the spirit (mental disposition, particular thinking behind the words, train of logic) followed instead the prevailing wind of teaching of their denomination or even non denomination. A prime example is marriage, in the catholic so called church and many other Christian groups, claimed marriages began at vows. So when they described the situation when a man is free to marry, lay with mutual consent with a woman also free to marry, they assume, called it in terms of fornication, just teenage sex, one night stand, or even sin. Contrary to the fact, never once was a marriage began at a vow, observed, recorded, stated in the the 66 books called the bible. Never once the situation described above was ever referred to in the bible by any of these terms, especially by the term fornication. Jesus had said,

Matt 15 "and if the blind guide the blind, both will fall in a pit."

In the 1800's it was one thing, for the Catholics, old mainline protestant groups in more urban areas to latch onto marriage occurs at a marriage vow, then bible readers in rural areas who clung on the principle, marriage occurs at one flesh, plainly written in the bible. Understood as in times past by the people (particularly bible readers). The electorate of private individualist, without government propping them up, used biblical principles as the foundation, been past down through generations, giving support to immediate weddings, referred to as shot gun weddings (without an actual gun). Individuals who on their own, studied the bible, observed the principle marriage begins at one flesh, many of them hidden as was in the past Christians were hidden, due to the world around them have turn a cold shoulder to bible secular principles. Contrary to so called priest, who saw an opportunity to gain greater power in the 1500's decreed laws that priest had to be present during a so called wedding.

- In 1403, the Bishop of Magdeburg threatening to excommunicate those who married without clergy in attendance.
- Council of Trent in 1563 officially required that Catholic marriages be presided over by a priest.

Combined with the false thinking marriage began at vows, began a convenient way for the parents to keep their sons and daughters from marring someone for financial, religious, nationality, racial reasons. Conveniently absolving themselves from their obligations to a baby. Then the priest step in again and furthered orphanages, to claim they were the compassionate people, which if they didn't meddle in the affairs in the beginning, many marriages would have been recognized and their babies would be cared by their father and mother. Compared to the country side where families were less separated as to classes, and more open to reading the bible, they saw a quick marriage according to bible standards was in order, especially to care for the children born in such situations. The Government began in the later 19<sup>th</sup> and 20<sup>th</sup> century promoted psychology and philosophy (infidel philosophy) began to emerge their greater unconstitutional empowerment, influence. They overwhelmed the status quo between the two groups concerning when marriage occurs, encouraged the nation down the path of relabeling youthful marriages when unknown to others, proclaimed on the airways, the massively growing government so called educational system, in high schools, as (just) "teenage sex", inevitably separated these couples. In their great blindness through the decades spearheaded by now a vast government left wing university system, within it's walls propped up philosophy (infidel philosophy) and psychology, tore down the underlying principle, marriage occurs at the moment of one flesh in the citizenry. This great blindness, error in judgment, by government philosophy (infidel philosophy) and psychology, inevitably tip the scales, cause a flood gate of youthful married couples unknown to others, leaving each other. These same people who spearheading Government psychology and philosophy (infidel philosophy), now claimed themselves as also the

compassionate as the priest had done, and devise it is now better to premeditatedly murder the child in abortion, so the young lady can pursue a so called higher education. Lining the pockets of these so called higher education in psychology, philosophy (infidel philosophy) and occupational professors and hundreds of thousands of government teachers. Consequently caused the greatest killing field, mass murder in history. The premeditated murder of approximately 60,000,000 babies in another final solution, named now abortion, in the USA alone. People will be looking back at this age, and see men and their woman had again fallen to the mentality of Hitler and slave owners, dehumanized a whole class of people, shed innocent blood.

As a further example the disciples of Psychology seek an even larger respect, promotion, power grab at the hands of the government propping them up. The Mental Health Parity Bill, couldn't pass on it's own for 12 years. It was stealthily inserted into the 800 billion bail out bill in 2008, to guarantee it's passage. The bill forces insurance companies to pay full amount, for "so called psychology treatment" equal to physical health treatment. From the early 90's, advocates of government paid universal health care with Hillary Clinton, had spear headed so called psychology expert treatment, be given to all, at the expense of the government. To have the state, be the designated provider of your mental thinking, particular thinking, through so called experts, verses human behavior groups such of religion and others, marginalized as non experts. The history of the Nazi party had also devised in it's infancy to replace religion and other groups role to care and provide for the people's thinking and well being. The Nazi party when in government took over the role. The government now says to insurance companies you have to single out psychology and treat it special, you are forced to pay for it's so called expert human behavior treatment. You can ignore, marginalized Christianity's spiritual (mental disposition, particular thinking) bible study treatment, observations of multiple generational human behavior in the bible, that deals with poor mental behavior toward their neighbors.

The government has scrapped the government structure of our founding fathers. A new structure, new world order, originating form Germany, of so called experts, bureaucrats, in human behavior, slowly worked their way in all the government institutions.

***"Where it has now become a government of the bureaucrats, by the bureaucrats, for the bureaucrats."***

So called trained hundreds of thousands of teachers in the universities, in the dogmas and tenets of philosophy (infidel philosophy) and psychology. Where the vast government school system across the nation, has lead, to relabel youthful marriages as (just) teenage sex, consequently separating them, consequently cause many to murder their children. We now have a state unelected human behavior group, a centralized hierarchy, in government universities, thinking they are entitled to government respect, promotion and establishment. Same as the Catholic church received government respect, promotion and establishment in the old world, before our nation was founded. Where even recently as an example, psychology in Germany, it's birth place, is shown their strong hold on society, when parents decided to home school their children, the germen police at gun point, took the children away to foster care and force the children, to see psychologist. It's as if we live in a time when parents dared to read the bible, found out, they were held off, by another human behavior group establishment, as once the catholic church, treated as experts in government.

Neither groups psychology or religion should ever be given the stamp of "expert", in human behavior. Neither placed on the government pay role over other groups. If government singles out psychology, even if given some so called Christian perspective, would still be showing favoritism, towards Psychology and a particular type, sect of Christianity. Christianity, with multiple generational observations of human behavior in the bible as their guide, are marginalized, treated as a non experts?

In Strong's Concordance a widely accepted, acclaimed as the fore runner of the definition of words contained in the bible, the word spirit is defined.

Spirit = Mental disposition, thought

The word spirit, is the terminology been used by bible readers for thousands of years, in the bible itself, as to mean mental disposition, particular thinking, thoughts, frame of mind, mind make up, intent, logic of man or of God. In 2 Corinthians it reads

John 6:63 It is the spirit (mental disposition, thought) that quickeneth; the flesh profiteth nothing: the words that I speak unto you, they are spirit (mental disposition, thought), and they are life.

1Co 2:11 For who among men knoweth the things of a man, save the spirit (mental disposition, thought) of the man, which is in him?

John 4: 6 They are of the world: therefore speak they of the world, and the world heareth them. We are of God: he that knoweth God heareth us; he that is not of God heareth not us. Hereby know we the spirit (mental disposition, thought by thought) of truth, and the spirit (mental disposition, thought by thought) of error.

The so called intelligentsia in German universities where psychology began in 1879, apparently ignored the meaning of the word spirit. Perhaps through ignorance or purposely. They grasp on the recently created word psychology and force this terminology upon the their students. That they were the experts in human behavioral. Ushering in a generation of students ignorant of the the bible perspective, ignorant of it's multiple generational human behavior observations, leading up to World War One and Hitler's allegiance, in World War Two. The death of millions, destruction and misery and the extermination of the Jewish people. Would I claim psychology is wholly at fault, the answer is no. I claim they are predominately at fault, through the blindness of psychologies' new terminologies, and ignorance of multiple generation observations of human behavior in the bible, have left their adherents, easy pray for merciless people as Hitler, the abortionist of today, and the politician, that supports the murder in abortion. For example Barack Obama, had not once but voted four times to hold back hospital care, if the child survives an attempted murder in abortion. As if Barack Obama said and by forced, the nurse and doctor to stop, don't be merciful, leave that child to suffer, a tortured slow death. There is innocent shed blood on Barack Obama's unrepentant hands. Anyone knowing of barrack Obama voted four times to end the the life of a child, a tortured slow death, who pulled the level voted for Barack Obama also has children's innocent shed blood on their hands. Anyone knowing voting for the democratic party, knowing they were for premeditated murder, torture of babies, has innocent shed blood on their hands. When government shows any particular favoritism, as to single out one human behavior group, such as psychology, philosophy (infidel philosophy) placing it on the government payroll or given any special treatment, government will render other human behavior groups, such as Christianity with it's word "spirit" meaning mental disposition, particular thinking, thought by thought, mind makeup, logic, at a disadvantage. Christianity, it's terminologies and recognition of youthful marriages when unknown to others, will be marginalize, to the point become non existent in the public discourse. Ending the original intent of our founding fathers, a democracy, truly of his or her human behavior group or groups outside of government.

11-28-2008 Therefore since the democratic party had fallen in hook and sinker with government promoted psychology and philosophy (infidel philosophy). Had relabeled youthful marriage when unknown to others, and particularly went the extra mile towards evil, promoted the slow torture and murder of these couples children. To allow the democratic party to continue, will be as if allowing the Nazi party to continue. There are 60,000,000 slow tortured, murdered babies crying aloud for justice at the door of the democratic party. I John Jerome Nowak, call for the Democratic party, the house of slow torture and murder, to close it's doors, cease and desist all it's operations forever more. For it's name will forever be linked to the the greatest premeditated mass

murder, slow torture of 60,000,000 lives. More murders than the Nazi party. The leaders and judges of the land must be held to a higher accountability. All politicians and judges, from the lowest to the highest office of the land, currently elect or unelected, who promoted, propagated the mass slow torture and murder of 50,000,000 lives, in abortion, would be advised to hand in their resignation. Upon the resignation a new election be held in 90 days. When upon that election day, 25 days afterwards the office will be vacated, all criminal charges will be dropped, and the newly elected official will be placed in charge. The politicians and judges who do not hand in their resignation, all criminal charges will remain against them, in their participation to conspire, premeditated in the greatest mass murder of man in history. Impeachment and recall vote should proceed if they do not resign. I suggest the people to never vote for these men and women, and their immediate family members, must be scrutinized carefully if they voiced similar appeals for abortion, for public office ever, as a dire warning.

I hope our country will be restored, return to our nation's foundational spirit and principles. That some or all of these guidelines would be taken to heart, to usher in a better tomorrow. I hope everyone the best.
