

United States House Of People in Ruin

September 6, 1995

Our founding fathers, had a deep trust and appreciation in the secular human behavior logic principles of Jesus. To our founding fathers the wall of separation of religion and state, existed inside religion not on the outside. Guiding our early Americans to govern and live using the secular human behavior logic principles of Jesus. (December 16, 2008 additional information, I remembered hearing Thomas Jefferson, wrote a book, of all the secular parts of the bible, particularity of Jesus' words, without the supernatural parts. The book had been given out to new members of congress.) Understanding the bible's importance, Abraham Lincoln used Jesus' secular logic in his campaign debate to explain "A house divided against itself, that house will not stand".

President John F. Kennedy in his inaugural speech spoke of his belief in a wall of separation of church and state. Me, being once a Catholic, educated from first grade to eight grade, in O.L.V., St hyacinth, and St, Barabara's schools. Understanding not long ago the bible was discourage and before that forbidden for Catholics to read. All secular human behavior logic principles of Jesus, heavenly logic, and ceremony was instituted by priest or nuns. John F, Kennedy being a Catholic, put the wall of separation "outside" of his church. So none of his critics would say being the first catholic president, that Kennedy is going to take counsel from his priest to govern as president.

When I was eighteen years of age going on nineteen, I stayed in my bedroom most of the summer in the year 1984. As our founding fathers before us, I prayed, fasted, and read intently Jesus' secular human behavior logic. The parables and Jesus' life story, over and over, learning slowly their inner truths of motives of men's hearts pertaining to greed, lust, power, compassion, justice, mercy, and humility. Through the years, I learned from talking to thousands of people of all walks of life and age, how relevant the bible's secular logic is to us and our country. I began to leave the once very important to me, psychology of the world.

Today psychology is prospering almost everywhere on television, in schools, and in courts. Psychology united in state, has been unconstitutionally uplifted by hundreds of billions of tax dollars for more then forty years. Blinding citizens from the founding fathers hopeful intention. To create a government, where men naturally reap what they sow, enabling men to be accountable to themselves, to read out, search and hopefully find through other non-gov't citizens, the founding fathers deep trust and appreciation in the secular human behavior logic principles of Jesus for an abundant life of happiness.

Your courage and trust will hopefully enable me to humbly ask the federal government to separate itself from psychology and compensate the American citizens

with a memorial to the humanity of Jesus. Called the “National Bethlehem Water front park”.

John Nowak
